ABIM Maintenance of Certification Education
2014 Update in Medical Oncology Module

COURSE OVERVIEW

Learning Objectives

After participating in this program, learners will be able to:

- Evaluate, treat and manage patients with hematologic disorders more effectively by making appropriate use of current and emerging therapies, cytological characteristics, and molecular diagnostics tests
- Improve care for breast cancer patients by incorporating novel targeted therapies and molecular diagnostics testing into current treatment paradigms
- Create multimodal treatment plans for lung, head and neck cancers that utilize newly approved therapies and conform more closely to current expert recommendations
- Improve treatment of patients with gastrointestinal and neuroendocrine cancers with more effective uses of molecular diagnostics and available systemic therapies
- Provide care for prostate, testicular, renal and bladder cancers that is tailored to individual patients and their risk factors and makes appropriate use of new and emerging therapies
- Utilize genetic testing, novel treatment approaches, and palliative care to create optimized care plans for patients with ovarian, cervical, endometrial, and trophoblastic cancers
- Incorporate new therapies where available and new clinical trial data into management plans for a wide range of less common cancers, including brain tumors, thyroid cancer, melanoma, sarcoma, and mesothelioma
- Provide effective supportive and palliative care by actively managing pain, depression, dementia, emesis, insomnia, infection, and other aspects of cancer and cancer treatment that can detract from patient quality of life and produce less than optimal outcomes

Accreditation

The Harvard Medical School is accredited by the Accreditation Council for Continuing Medical Education to provide continuing medical education for physicians.

The Harvard Medical School designates this live activity for a maximum of 52.75 AMA PRA Category 1 Credits™. Physicians should claim only the credit commensurate with the extent of their participation in this activity. This activity meets the criteria of Massachusetts Board of Registration in Medicine for 0.75 hours of Risk Management Study. This includes 0.75 credits of End-of-Life Care Studies. Please check your individual state licensing board requirements before claiming these credits.

ACGME Competencies

This course is designed to meet one or more of the following Accreditation Council of Graduate Medical Education competencies: Patient Care • Medical Knowledge • Communication Skills • Professionalism • System-based Practice

COURSE DIRECTOR

Robert J. Mayer, MD

Dr. Mayer is Faculty Vice President for Academic Affairs at the Dana-Farber Cancer Institute, Senior Physician at the Brigham and Women's Hospital, and the Stephen B. Kay Family Professor of Medicine at the Harvard Medical School where he is also Faculty Associate Dean for Admissions. He directed the Institute's Medical Oncology Fellowship Program for 36 years, overseeing the training of several hundred oncologists. Dr. Mayer's research interests focus on gastrointestinal cancer, a subject about which he has published extensively. Dr. Mayer established the Center for Gastrointestinal Oncology at the Dana-Farber Cancer Institute and is the past Chair of the Gastrointestinal Cancer Committee of the Cancer and Leukemia Group B, a cooperative group sponsored by the National Cancer Institute. He has served as an Associate Editor for the *New England Journal of Medicine* and the *Journal of Clinical Oncology*, is a past President of the American Society of Clinical Oncology, and is a former member of the Executive Committee of the American Board of Internal Medicine. Dr. Mayer is a graduate of Williams College and the Harvard Medical School.
